Coaxial Cable LMR 300 Rs 120 Per Meter

- ✓ 24x7 Technical Support
- ✓ One Year Warrant

Product overview

SIGLIFT low loss flexible coaxial cable LMR 300 is designed for typical use for mobile signal antenna towers, radio, antenna and interconnect with RF components. This cable assembly uses a 50 Ohm N male connector on both ends and has a 50 Ohm impedance for the cable. Once you have used SIGLIFT coaxial cable you will never go back to stiff cable. Used by major mobile operators in India for their towers for better mobile signals in the area.

- 1-Year Warranty
- Free shipping in India
- Cash on delivery
- 10-Day Returns
